### LANGUAGES

Hindi

English

### CAREER OBJECTIVE

As a Junior Software Developer, I bring 1.5 year of hands-on experience specializing in React Native. Proficient in developing mobile applications, I have a solid foundation in problem-solving and a commitment to continuous learning.

### WORK EXPERIENCE

#### Junior Software Developer

StackSmith Consultancy, India

Nov 2022 - Present

- Developed and maintained cross-platform applications using **React Native**.
- Implemented UI components and features, resulting in a 20% improvement in user satisfaction and **seamless user experiences**.
- Optimized app performance and **addressed bugs** through debugging, resulting in a 10% improvement in **overall system stability** and user satisfaction.
- Implemented state management solutions, such as **Redux**, to efficiently handle app state, resulting in a 25% improvement in state management efficiency.
- Participated in code reviews, contributing and receiving constructive feedback with a focus on continuous improvement, resulting in a 15% enhancement in code quality.
- Contributed to the documentation of code and project-related information, resulting in a 25% improvement in overall project understanding.
- Successfully incorporated external libraries and APIs, expanding app capabilities with features like Google Maps, React Native calendars and in-app video playback, resulting in a 35% enhancement of app functionality.
- Managed company's social media accounts, implementing strategies that led to a 25% increase in views and a 20% growth in followers.

### PROJECT

Roofing construction management

Dec 2022 - Apr 2023

- Developed an application aimed at streamlining the management of multiple subcontractors in the roofing construction business. Included real-time tracking of project progress.
- Designed a project process with tags for ongoing, upcoming, maintenance, and finished stages.
- Improved project management efficiency, resulting in a 20% reduction in overall project timelines.
- Enhanced user experience by 25% through the implementation of intuitive UI features and real-time tracking capabilities.

### ACHIEVEMENTS

#### Developed

- Enhanced UI performance by 25% through optimization of React Native cross-platform apps.

#### Delivered

- Developed over 4 user-friendly Android/iOS apps, meeting user requirements and boasting a sleek UI.

#### Led

- Guided the entire project creation and development process, ensuring smooth operations through planning, documentation, and contributing to improved business growth.
